

Product Specifications

Our HDMI female-to-female coupler will extend the distance of your existing HDMI cable by allowing two cables to be coupled together. It is compact and designed for minimal signal loss to provide an easy, quality connection between two HDMI cables. PCB design safeguards signal integrity; gold-plated connectors.

When your installation leaves you short, save time and money and avoid the aggravation of running new cables by simply extending your existing HDMI connection.

Connector 1: HDMI Female

Connector 2: HDMI Female
