

Product Specifications

An ideal solution for your cabling needs is here! Agiler is has always increasing cabling solutions for you. This 10-Foot Cat5e Patch Cable promises you a molded, snag-free boot that helps prevent unwanted cable snags. With this cable you're always certain to have an excellent performing cable that is applicable to all your cable dilemmas. This 10-Foot Cat5e Patch Cables are specially manufactured to hold bandwidth demanding applications for up to 350 Mhz. These cables meet all Cat5e TIA/EIA standards so you don't have to worry about its dependability. To ensure a high performance cable, these 10-Foot Cat5e Patch Cables are composed of a high-quality wire and shortened body plug that keeps a minimum level of Near-end Crosstalk (NEXT) and radically lessens impedance and structural return loss (SRL).
