

Features:

- This is a kind of high performance HDMI switcher
- It can easily switches three sources to one display.
- It not only has the key-press-switching function, but also has intelligent function.
- With one fixed HDMI cable (pigtail) this converter not only reduces cost but also save time for costumers.
- It routes high definition video (in multiple resolutions up to 1080p) and digital audio from any one of the three sources to display units.
- All inputs accommodate the connections of the high definition video sources simultaneously, compatible well for HD-DVD, SKY-STB, PS3, Xbox36, etc.
- The output sends the high definition audio/video signals to a high definition display.
- Built-in LED indicators.
- Automatically Switching to Active Peripheral or by Button.
- 2 x Mounting holes on switch.
- 3 HDMI inputs.
- 1 HDMI output.

Specifications:
