

Product Features

This is a high performance 80 mm case fan for anyone looking for a quiet and efficient case fan. Quietly perfect. The refined impeller design not only improves the laminar airflow, but it also lowers the noise level significantly. It provides up to 50,000 hours of constant air-flow. Key Benefits: * Built strong for long-lasting use. * Reduces temperatures in your system.

Specifications:

- Dimension: 80x80x25
- Operation voltage (VDC): 6.0-13.8
- Rated voltage (VDC): 12.0
- Rated current (AMP): 0.21
- Bearing type: Sleeve Bearing
- Fan speed (RPM): 2500+10%
- Air Flow (CFM): 32.37
- Noise (dBA): 27.85
- Color: Black
- Packing: Agiler box.
