

Product Features

- M.2 Enclosure Up to 10 Gbps High speed M.2 NVME to USB 3.1 Gen 2, 6Gbps speed M.2 SATA to USB 3.1 Gen 1, perfect solution for data transfer and data backup, the actual transfer speed depends on the speed of your SSD, USB Port type, your computer performance, and NVMe /SATA media used etc. One HD movie transfer only takes 2-5 seconds.
- AGILER SATA NGFF enclosure allows quick and easy installation of your M.2 NVMe SSDs or M.2 SATA SSDs. The first time you use m.2 solid state drive SSD, you need to format the disk. It will be safe for your memory data.
- Compatible with M.2 NVMe/SATA PCIe M key, PCIe B&M key SSD. Note: NVMe and SATA SSD are not included. NOT compatible with M.2 PCIe AHCI SSDs, M.2 PCIe devices such as WiFi and capture cards, mSATA SSDs, and non-M.2 form factor SSDs. Applicable to sizes 2242 / 2260 / 2280 solid state drivers.
- AGILER SATA Enclosure Compatible Multi OS, Windows, Mac OS, Linux, Android. Support UASP / Trim with ultra fast transmission speed. Supports Plug & Play and Hot-Swapping. Fits storage up to 2TB (not included). You can snap in your NVMe or SATA drive and keep it in this enclosure and use it as a portable hard drive.
- M.2 adapter adopts aluminum alloy shell, slim design, durable and excellent heat dissipation, reduced power consumption. Includes both USB Type-C and USB 3.1 (Type-A) cables.
